Sammamish Plateau Water to Hold Public Hearing on 2021 Budget and Proposed Water and Sewer Rate Adjustments

Sammamish WA - The Sammamish Plateau Water Board of Commissioners will be conducting a public hearing to receive public comment on, and consider adoption of the 2021 budget and proposed water and sewer rate adjustments.

Monday, December 7, 2020 at 6:00 pm

In response to the COVID-19 pandemic emergency and state guidelines, the public hearing will be held virtually using the Zoom platform. Public hearing participation information will be available on the District's website at spwater.org/publichearings or by calling (425) 392-6256.

Water rates

The District is proposing a total adjustment to water revenue of 3%, which would be applied to both the fixed water charge and the variable water consumption charges. A single-family residential customer using between 400 cubic feet to 700 cubic feet per month would see a monthly increase ranging from \$1.20 to \$1.40 on their water bill.

Sewer rates

The District is proposing an adjustment to sewer revenue of 2%, which would increase the monthly sewer rate for a single-family residential sewer customer by \$0.74 to \$37.96 per month.

About Sammamish Plateau Water

Sammamish Plateau Water is a regional provider of water and wastewater services to more than 64,000 residents over 29 square miles across cities of Sammamish and Issaquah, and areas of unincorporated King County. The District's mission is to provide safe, efficient and reliable water and sewer services by being a leader in the planning and practice of fiscal and environmental stewardship.
